

## CALL FOR PAPERS

Special Session

# Biometric recognition and verification of persons and their activities for video surveillance

The objective of this special session is to present a number of high-quality papers on advanced video-based methods for identification of individuals, activity recognition, and surveillance. The special session will take place on Santorini island during the 16th International Conference on Digital Signal Processing (July 5 – July 7, 2009). A list of topics of interest includes but is not limited to the following:

### Topics of Interest

- Behavioral biometrics
- Gait recognition
- Activity recognition
- Physiological biometrics
- Face dynamics recognition
- Multimodal biometrics
- Activity-related Biometrics
- Multiview techniques for biometrics
- Biometric fusion
- Human activity models
- Human activity databases
- Ethical issues in surveillance

Please feel free to contact the organizers in case you are in doubt about the appropriateness of your paper for this session.

### **Important Dates**

Deadline for camera-ready paper submission: *February 15, 2009.*

Notification of acceptance: *March 15, 2009.*

### **Submission**

Authors are invited to contribute high-quality papers in the above referenced topics. All papers will be submitted through the DSP 2009 submission system in pdf format. Submissions to this session are limited to eight (8) pages. Please format and submit your paper according to the guidelines given at <http://www.dsp2009.org/default.asp?pg=submission&lng=en>. Submitted papers will undergo peer review. All accepted papers will be published in the conference proceedings and will be available for online access via IEEE Xplore.

### **Organizers**

N. V. Boulgouris, King's College London, United Kingdom
